NH DHHS COVID-19 Update – March 25, 2021

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Thursday, March 25, 2021, DHHS announced 418 new positive test results for COVID-19, for a current PCR test positivity rate of 2.0%. Please note, there have been an additional 156 cases added to the case count, in addition to the new cases above. These cases were identified during data quality assurance activities and are from December 2020 through March 2021. Today's results include 244 people who tested positive by PCR test and 174 who tested positive by antigen test. There are now 2,856 current COVID-19 cases diagnosed in New Hampshire. Of the results reported today:

- **3/24: 418** new cases

Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are sixty-two individuals under the age of 18 and the rest are adults with 47% being female and 53% being male. The new cases reside in Rockingham (104), Hillsborough County other than Manchester and Nashua (74), Strafford (43), Merrimack (20), Cheshire (19), Grafton (16), Belknap (10), Carroll (10), Coos (3), and Sullivan (2) counties, and in the cities of Manchester (58) and Nashua (35). The county of residence is being determined for twenty-four new cases.

Community-based transmission continues to occur in the State and has been identified in all counties. Of those with complete risk information, most of the cases have either had close contact with a person with a confirmed COVID-19 diagnosis, are associated with an outbreak setting, or have recently traveled.

DHHS has also announced one additional death related to COVID-19. We offer our sympathies to the family and friends.

- 1 female resident of Hillsborough County, 60 years of age and older

There are currently 82 individuals hospitalized with COVID-19. In New Hampshire since the start of the pandemic, there have been a total of 82,039 cases of COVID-19 diagnosed.
